Job Title: Energy Market Analyst (On-site)
Job Location: Saint Augustine, FL
Salary: Commensurate with experience

Job Summary:

Vitis Energy, a leading wholesale power generator and developer, is seeking an Energy Market Analyst to join our growing renewable energy development team. We are seeking a self-motivated individual looking to begin and build a career in the energy industry with a company that offers competitive salaries, excellent benefits and opportunities for growth.

The ideal candidate will bring some knowledge of the U.S. energy industry and excellent analytical skills to identify, monitor and anticipate trends in the U.S. power market. Working with our team of engineers and project development professionals, you'll provide the critical data analysis to inform strategic development decisions. Excellent communication skills are a must for this position in order to analyze and share data with both colleagues and development partners.

Required Skills/Abilities:

- Identify tools and resources for conducting power marketing research
- Develop processes and procedures for monitoring key energy industry trends
- Stay up to date with local, state and national energy issues and regulatory changes
- Identify company differentiators in the marketplace
- Analyze and report on current and future trends to help inform strategic project development decisions
- Work collaboratively with project development and engineering staff to deliver projects on time and within budget

Education and Experience:

- Bachelor of Science in Environmental Science, Business Administration, Statistics, Economics or related field
- 1-3 years of professional experience
- Strong research and data analysis skills
- Familiarity and experience with the energy industry is preferred, but not required
- Excellent verbal, written, and interpersonal communication skills
- Highly motivated self-starter
- Team-oriented with strong capability to motivate others

Travel: As required, up to approximately 10% of time

Type of Position: Full time, exempt
